Lecture prep, Thursday March 2nd

Hi Class,

If you are able, please do the following before lecture.

1. Create a folder in your classwork directory called **canids**.
2. Download [this](#) file to that folder
3. Install the paleotree package to R on your virtual machines.
4. We will go through [this](#) plotting exercise together in class so download the html document if you want to have a local copy.

See you all soon!

Professor Alfaro
